Skills

Figma, Adobe XD; Illustrator; Photoshop; Notion; Spline; Webflow; WordPress; Tailwind CSS.

Wireframing; Prototyping; Interaction Design; Design Systems; Information Architecture.

User Research; Usability Testing; Heuristic Evaluation; Accessibility (WCAG).

Desktop applications; UX Documentation; Design Handoff; Design Systems Maintenance; Complex System Interfaces.

API integrations; Workflow automation; Conversational AI; OpenRouter configuration; LLM-powered feature implementation.

Collaboration with Developers; Agile and Scrum Workflow; Cross-Functional Team Leadership.

Mentoring UX/UI Interns; Workshop Facilitation; Continuous Improvement; Team support.

Languages

English (Fluent).

Dutch (Fluent).

German (actively improving).

Experience

Hestiva Platforms B.V.

Product and UX Designer

Feb 2025 – Present

- Led end-to-end product and user experience strategy for a mobile-first rental platform, defining product vision, roadmap milestones, and release cycles from concept to scale.
- Scaled the platform to 16,000+ registered users, consistently generating between 10,000 and 16,000 monthly organic visitors and driving sustained engagement.
- Orchestrated cross-functional execution across engineering, marketing, and business development, aligning priorities to ensure timely deployment and measurable growth.
- Defined UX architecture, user flows, and AI-enabled automation workflows, translating research and behavioral insights into scalable product decisions.
- Established scalable UX documentation, system patterns, and operational workflows to support continued expansion and regional growth.

LeadMind Agency

Senior UX/UI Designer

Feb 2024 – Jan 2025

- Led UX direction across four concurrent, data-intensive product initiatives, ensuring on-time delivery under strict deadlines while maintaining design quality and consistency.
- Developed structured project overviews and milestone roadmaps, presenting progress and trade-offs to stakeholders to align expectations and secure buy-in.
- Governed and evolved a shared design system adopted across multiple products, reducing design-to-development friction and improving delivery speed.
- Mentored junior designers and interns, establishing structured critique processes and raising overall design standards across the team.

LeadMind Agency

UX/UI Designer

Jul 2022 – Jan 2024

- Delivered UX solutions for complex digital products through user research, usability testing, and competitive analysis, translating insights into structured design decisions.
- Produced end-to-end user journeys, wireframes, and high-fidelity prototypes to support product validation and engineering implementation.
- Iterated designs within Agile environments, balancing user needs, technical feasibility, and evolving business requirements.

Accessibility Experience

Winner of ProjectB Challenge

Issued by Sogeti part of Capgemini 2020

Designed a user-centred digital solution for people with dementia and caregivers, focusing on accessibility, usability, and real-world healthcare constraints.

Education

Communication and Multimedia Design

The Hague University of Applied Sciences Aug 2018 – Jul 2021

Bachelor of Applied Science (BASc)
