Introduction

Growth Product Manager with experience optimizing self-serve SaaS funnels from acquisition to activation. Skilled in identifying UX friction, improving onboarding flows, and running data-driven experiments that increase conversion and retention. Strong background in user behavior analysis, experimentation frameworks, and conversion optimization across web and product experiences.

Experience

Hestiva Platforms B.V.

Product Owner (Growth Product)

Feb 2025 – Present

- Orchestrated growth strategies that scaled the platform from 10k to 16k registered users within 6 months of stepping into leadership, representing a 60 percent increase in user base.
- Negotiated and secured high-value affiliate partnerships with industry leaders HousingAnywhere and Kamernet, expanding market reach and driving high-intent traffic.
- Managed a digital roadmap that consistently delivers 14k+ monthly visitors, balancing technical feasibility with aggressive KPIs for regional expansion in the Netherlands.
- Leveraged Design Thinking to identify market gaps and refine product positioning, successfully driving an MVP (KeyScout) to 300+ subscribed users within the first 5 months.
- Set KPI frameworks and automated dashboards to monitor user engagement and conversion funnels, enabling data-driven pivots and high-velocity iterations.
- Led agile "pods" (Design, Engineering, Marketing) to streamline delivery, ensuring product updates were aligned with both user desirability and business growth targets.

LeadMind Agency

Senior UX/UI Designer

Jul 2022 – Jan 2025

- Built the design department from 4 to 11 members and implemented standardized design systems that reduced development revisions by 11 percent significantly increasing speed-to-market.
- Led co-creation workshops for 8+ digital platforms, translating complex business challenges into actionable roadmaps and market-ready experience blueprints.
- Leveraged competitor benchmarking and user data analysis to optimize conversion rates and refine product-market fit during initial launch phases.
- Served as the primary strategic lead for diverse clients, securing project buy-in through transparent reporting and evidence-based design decisions.

Accessibility Experience

Winner of ProjectB Challenge

Issued by Sogeti part of Capgemini 2020

Developed an accessible digital concept for dementia patients and caregivers based on WCAG usability principles.

Education

Communication and Multimedia Design

The Hague University of Applied Sciences Aug 2018 – Jul 2021
